For Immediate Release

First Interstate BancSystem, Inc. Reports First Quarter Earnings

Billings, MT - April 25, 2019 - First Interstate BancSystem, Inc. (NASDAQ: FIBK) today reported financial results for the first quarter of 2019. For the quarter, the Company reported net income of \$41.6 million, or \$0.69 per share, which compares to net income of \$40.4 million, or \$0.67 per share, for the fourth quarter of 2018, and \$36.7 million, or \$0.65 per share, for the first quarter of 2018.

First quarter 2019 earnings included acquisition costs related to the acquisitions of Northwest Bancorporation, Inc. (“Northwest”), the parent company of Inland Northwest Bank (“INB”), Idaho Independent Bank (“IIBK”), and Community First Bank (“CMYF”). Fourth quarter 2018 earnings included acquisition costs related to the acquisition of INB and the first quarter of 2018 earnings included the acquisition costs related to the acquisition of Cascade Bancorp (“CACB”) and its wholly-owned subsidiary, Bank of the Cascades (“BOTC”). The aforementioned acquisitions negatively impacted earnings by \$0.03, \$0.09, and \$0.03 per common share for the first quarter of 2019, the fourth quarter of 2018, and the first quarter of 2018, respectively.

HIGHLIGHTS

- Net income of \$41.6 million during the first quarter of 2019, an increase of \$4.9 million, or 13.4%, from the same period in the prior year of \$36.7 million.
- Total deposits increased \$134.0 million during the first quarter of 2019, or 5.3% annualized growth.
- Net interest margin ratio, on a fully taxable equivalent basis, increased to 4.04% for the first quarter of 2019, a 5 basis point increase from the prior quarter and a 29 basis point increase from the same period in the prior year.
- Tangible book value per common share of \$18.21 as of March 31, 2019, compared to \$17.52 as of December 31, 2018 and \$16.07 as of March 31, 2018.
- Asset quality remained relatively unchanged in the first quarter of 2019. Non-performing assets as a percentage of total assets of 0.54% compared to 0.55% during the fourth quarter of 2018 and 0.63% during the first quarter of 2018.

- Successfully closed the acquisitions of Idaho Independent Bank and Community First Bank on April 8, 2019. With these acquisitions we are the 6th largest bank in Idaho by total assets.

“We are pleased with our performance in the first quarter, which was highlighted by positive trends in net interest margin, expense management, and asset quality,” said Kevin P. Riley, President and Chief Executive Officer of First Interstate BancSystem, Inc. “Relative to our past first quarters, we had a stronger quarter of loan production, particularly in the commercial and commercial real estate areas, which reflects the positive impact of our larger presence in faster growing markets. The recent completion of our acquisitions of Idaho Independent Bank and Community 1st Bank will further improve our ability to capitalize on the robust economic growth being seen across the state of Idaho. Our loan pipeline is the largest it has ever been, and as we continue to add quality assets and maintain disciplined expense management, we expect to deliver a higher level of profitability going forward.”

ACQUISITIONS

On October 11, 2018, the Company entered into a definitive agreement to acquire all of the outstanding stock of IIBK, a community bank headquartered in Coeur d' Alene, Idaho with 11 banking offices across Idaho. The acquisition was completed on April 8, 2019, and conversion of the data processing systems will occur in June 2019. Consideration for the acquisition was \$157.3 million, consisting of the issuance of 3.871 million shares of the Company's Class A common stock valued at \$40.64 per share, the closing price of the Company's Class A common stock as quoted on the NASDAQ stock market on the acquisition date. Holders of each share of IIBK common stock received 0.50 shares of First Interstate Class A common stock for each share of IIBK common stock.

On October 11, 2018, the Company also entered into a definitive agreement to acquire all of the outstanding stock of CMYF, a community bank headquartered in Post Falls, Idaho with three banking offices in North Idaho. The acquisition was completed on April 8, 2019, and conversion of the data processing systems will occur in June 2019. Consideration for the acquisition was \$18.8 million, consisting of the issuance of 0.463 million shares of the Company's Class A common stock valued at \$40.64 per share, the closing price of the Company's Class A common stock as quoted on the NASDAQ stock market on the acquisition date. Holders of each share of CMYF common stock received 0.3784 shares of First Interstate Class A common stock for each share of CMYF common stock.

NET INTEREST INCOME

The Company's net interest income decreased \$2.9 million, or 2.4%, to \$116.0 million during the first quarter of 2019, compared to \$118.9 million during the fourth quarter of 2018, primarily as a result of the 2019 period having two fewer accrual days. Net interest income increased \$16.2 million, or 16.2%, from \$99.8 million during the first quarter of 2018, primarily as a result of higher levels of earning assets and an expansion in our net interest margin.

Net interest income was positively impacted this quarter by the recovery of previously charged-off interest of \$0.9 million compared to previously charged-off interest of \$0.7 million during both the fourth quarter of 2018 and the first quarter of 2018.

Interest accretion attributable to the fair valuation of acquired loans contributed \$3.9 million to net interest income during the first quarter of 2019, of which approximately \$1.7 million was related to early payoffs. This compares to interest accretion of \$4.1 million in net interest income during the fourth quarter of 2018, of which approximately \$1.7 million was related to early payoffs, and interest accretion of \$3.1 million in net interest income during the first quarter of 2018, of which approximately \$1.1 million was related to early payoffs.

The Company's net interest margin ratio improved to 4.04% during the first quarter of 2019, or 5 basis points, as compared to 3.99% during the fourth quarter of 2018, primarily as a result of higher yields on interest earning assets. Compared to the first quarter of 2018, net interest margin expanded 29 basis points, from 3.75%, due primarily to the result of higher yields on higher levels of earning assets. Exclusive of the impact of the recovery of charged-off interest and the impact of interest accretion on acquired loans of an aggregate of \$3.9 million, \$4.1 million, and \$3.1 million, respectively, the Company's net interest margin ratio expanded 3 basis points to 3.87% during the first quarter of 2019, compared to 3.84% during the fourth quarter of 2018, and expanded 26 basis points compared to 3.61% during the first quarter of 2018.

PROVISION FOR LOAN LOSSES

The Company recorded a provision for loan losses of \$3.7 million during the first quarter of 2019, compared to \$1.6 million during the fourth quarter of 2018, and \$2.1 million during the first quarter of 2018. The Company's allowance for loan losses as a percentage of period-end loans was 0.85%, 0.86%, and 0.96% at March 31, 2019, December 31, 2018 and March 31, 2018, respectively. The decrease in the percentage from March 31, 2018 is primarily a result of higher loan balances from INB acquired loans, which were recorded at fair value in purchase accounting, with no corresponding allowance for loan losses. Coverage of non-performing loans was 138.70%, 125.65%, 110.03% at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.

NON-INTEREST INCOME

Total non-interest income was stable at \$34.5 million during the first quarter of 2019, as compared to \$34.3 million for the fourth quarter of 2018. Total non-interest income decreased \$0.7 million, or 2.0%, from \$35.2 million during the first quarter of 2018, primarily as a result of the impact of the Durbin Amendment, as described below.

Payment services revenues were seasonally lower at \$9.4 million during the first quarter of 2019, when compared to the \$9.8 million earned during the fourth quarter of 2018. Payment services revenues decreased \$1.1 million, or 10.5%, during the first quarter of 2019, when compared to the \$10.5 million earned during the first quarter of 2018, primarily as a result of a \$3.1 million decrease in revenues during the first quarter of 2019 attributable to the Durbin Amendment. This rule, which limits the amount of interchange fees banks of our size may charge, impacted our Company beginning July 1, 2018. This decrease was offset by increases in debit card and credit card volume during the first quarter of 2019 as compared to the first quarter of 2018.

During the first quarter of 2019, loans originated for home purchases accounted for approximately 79.1% of loan production, as compared to 82.5% during the fourth quarter of 2018 and 68.2% during the first quarter of 2018.

NON-INTEREST EXPENSE

Non-interest expense decreased \$5.6 million, or 5.6%, to \$93.8 million during the first quarter of 2019, as compared to \$99.4 million during the fourth quarter of 2018, primarily due to a reduction in 2019 of \$4.7 million in acquisition related costs. Non-interest expense increased \$7.9 million, or 9.2%, from \$85.9 million during the first quarter of 2018, as a result of higher expenses related to the INB acquisition in the 2019 period.

Acquisition related expenses for the first quarter of 2019, the fourth quarter of 2018, and the first quarter of 2018 were \$2.3 million, \$7.0 million, and \$2.3 million, respectively. The after-tax impact of acquisition related expenses on earnings per share was \$0.03, \$0.09, and \$0.03 per share, respectively, for each of the quarterly periods.

The following table presents, for the periods indicated, acquisition related expenses.

	Quarter Ended				
	Mar 31, 2019	Dec 31, 2018	Sep 30, 2018	Jun 30, 2018	Mar 31, 2018
Legal and professional fees	\$ 0.3	\$ 1.1	\$ 2.4	\$ —	\$ 0.5
Employee expenses	0.6	1.0	—	—	0.1
Technology conversion and contract terminations	0.8	4.6	0.5	—	1.5
Other	0.6	0.3	0.2	—	0.2
Total acquisition related expenses	\$ 2.3	\$ 7.0	\$ 3.1	\$ —	\$ 2.3

Exclusive of acquisition related expenses, non-interest expense was \$91.5 million during the first quarter of 2019, compared to \$92.4 million during the fourth quarter of 2018. Exclusive of acquisition related expenses, non-interest expense was \$83.6 million during the first quarter of 2018, primarily attributable to higher operating costs related to the INB acquisition.

Salary and wage expenses decreased \$4.6 million, or 11.3%, to \$36.1 million during the first quarter of 2019, compared to \$40.7 million during the fourth quarter of 2018, primarily due to two fewer days of wages expense and lower bonus expense incurred in the 2019 period, along with cost savings related to departures associated with the INB acquisition. Salaries and wage expenses increased \$1.5 million, or 4.3%, from \$34.6 million in the first quarter of 2018. The increase reflects higher levels of wages and incentive compensation related to the INB acquisition.

Employee benefit expenses increased \$2.0 million, or 16.1%, to \$14.4 million during the first quarter of 2019, as compared to \$12.4 million during the fourth quarter of 2018, due to the seasonal first quarter reset of payroll taxes, higher long-term incentive costs as a result of the Company achieving certain growth goals and higher benefit costs related to the inclusion of additional employees from the INB acquisition. Employee benefit expenses increased \$3.1 million, or 27.4%, from \$11.3 million during the first quarter of 2018, primarily due to an increase in expense related to the INB acquisition in the first quarter of 2019.

Occupancy and equipment expense increased to \$10.5 million during the first quarter of 2019, as compared to \$9.8 million for the fourth quarter of 2018. Occupancy and equipment expense increased \$1.1 million, or 11.7%, during the first quarter of 2019 from \$9.4 million during the first quarter of 2018. The increases in occupancy and equipment expense is primarily due to increases related to the INB acquisition and one-time maintenance costs of \$0.3 million in the first quarter of 2019.

Other expenses increased \$1.0 million, or 3.7%, to \$28.1 million during the first quarter of 2019, as compared to \$27.1 million during the fourth quarter of 2018, primarily due to normal fluctuations in operating expenses. Other expenses increased \$1.8 million, or 6.8%, during the first quarter of 2019 from \$26.3 million during the first quarter of 2018, primarily due to the acquisition of INB.

Exclusive of INB acquired loans of \$7.7 million, consumer loans increased \$8.2 million, or 0.8%, primarily attributable to growth in the direct portfolio.

CREDIT QUALITY

As of March 31, 2019, non-performing assets increased \$0.8 million, or 1.1%, to \$73.3 million, compared to \$72.5 million as of December 31, 2018. Non-accrual loans decreased \$9.2 million to \$45.1 million as of March 31, 2019, as compared to \$54.3 million during the fourth quarter of 2018.

Criticized loans increased \$1.2 million, or 0.3%, to \$402.5 million as of March 31, 2019, from \$401.3 million as of December 31, 2018 and increased \$6.0 million from \$396.5 million as of March 31, 2018. The increase compared to the first quarter of 2018 is a result of loans acquired in the INB acquisition in August 2018.

Net loan charge-offs increased \$2.1 million to \$4.3 million during the first quarter of 2019, as compared to \$2.2 million during the fourth quarter of 2018. The net loan charge-offs in the first quarter of 2019 were composed of charge-offs of \$6.0 million and recoveries of \$1.7 million. Net loan charge-offs during the first quarter of 2018 were \$0.7 million. The increase in net charge-offs during the first quarter of 2019 compared to the fourth quarter of 2018 was largely driven by lower levels of recoveries, a \$1.2 million charge-off of a construction real estate loan on a golf course property, and higher consumer net charge-offs of \$1.2 million, mainly related to the indirect and home equity portfolios.

NON-GAAP FINANCIAL MEASURES

In addition to results presented in accordance with generally accepted accounting principles (“GAAP”) in the United States of America, this release contains the following non-GAAP financial measures that management uses to evaluate our capital adequacy: (i) tangible book value per common share; (ii) tangible common stockholders’ equity to tangible assets; (iii) tangible assets; (iv) tangible common stockholders’ equity; and (v) return on average tangible common stockholders’ equity. Tangible book value per common share is calculated as tangible common stockholders’ equity divided by common shares outstanding. Tangible common stockholders’ equity to tangible assets is calculated as tangible common stockholders’ equity divided by tangible assets. Tangible assets is calculated as total assets less goodwill and other intangible assets (excluding mortgage servicing assets). Tangible common stockholders’ equity to tangible assets is calculated as tangible common stockholders’ equity divided by tangible assets. Return on average tangible common stockholders’ equity is calculated as net income available to common shareholders divided by average tangible common stockholders’ equity. These non-GAAP financial measures may not be comparable to similarly titled measures reported by other companies because other companies may not calculate these non-GAAP measures in the same manner. They also should not be considered in isolation or as a substitute for measures prepared in accordance with GAAP.

The Company adjusts the foregoing capital adequacy measures to exclude intangible assets except mortgage servicing rights, adjusts its non-interest expense to exclude acquisition related expenses, and adjusts its net interest margin ratio to exclude the impact of the recovery of charged-off interest and the impact of interest accretion on acquired loans. Management believes these non-GAAP financial measures, which are intended to complement the capital ratios defined by banking regulators and to present on a consistent basis our and our acquired companies' organic continuing operations without regard to the acquisition costs and adjustments that we consider to be unpredictable and dependent on a significant number of factors that are outside our control, are useful to investors in evaluating the Company’s performance because, as a general matter, they either do not represent an actual cash expense and are inconsistent in amount and frequency depending upon the timing and size of our acquisitions (including the size, complexity and/or volume of past acquisitions, which may drive the magnitude of acquisition related costs, but may not be indicative of the size, complexity and/or volume of future acquisitions or related costs), or they cannot be anticipated or estimated in a particular period (in particular as it relates to unexpected recovery amounts). This impacts the ratios which are important to analysts and also allows investors to compare certain aspects of the Company’s capitalization to other companies.

See the Non-GAAP Financial Measures table included herein and the textual discussion for a reconciliation of the above described non-GAAP financial measures to their most directly comparable GAAP financial measures.
