## **Item 8.01 Other Events.**

On June 11, 2019, the First Interstate BancSystem, Inc. (the "Company") board of directors adopted a new stock repurchase program to replace the program that had been in place since 2015 and which had only 24,123 shares of Class A common stock remaining to be purchased thereunder. Under the new stock repurchase program, the Company may repurchase up to 2.5 million of its outstanding shares of Class A common stock. Any repurchased shares will be returned to authorized but unissued shares of Class A common stock in accordance with Montana law. The Company currently has approximately 42.8 million shares of Class A common stock issued and outstanding, and has not to date commenced purchasing any shares of its Class A common stock under the program.

Under the stock repurchase program, the Company intends to repurchase its shares through authorized Rule 10b5-1 trading plans (which would permit the Company to repurchase shares when the Company might otherwise be precluded from doing so under applicable securities laws), open market purchases, private transactions, block trades, or otherwise in accordance with applicable federal securities laws, including Rule 10b-18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Under the Company's Insider Trading Policy, the Company can enter into a Rule 10b5-1 plan only during an open trading window. The stock repurchase program has no expiration date.

Adopting a written trading plan that satisfies the conditions of Rule 10b5-1 under the Exchange Act allows a company to repurchase its shares at times when it might otherwise be prevented from doing so due to self-imposed trading blackout periods or pursuant to applicable securities and insider trading laws. An independent broker selected by the Company will have the authority under the terms and limitations specified in its Rule 10b5-1 trading plan to repurchase shares on the Company's behalf in accordance with the terms of the plan. After the expiration of the current trading plan, the Company may from time to time enter into subsequent trading plans under Rule 10b5-1 of the Exchange Act to facilitate the repurchase of its Class A common stock pursuant to its stock repurchase program.

Repurchases may also be made at management's discretion, subject to the insider trading window periods imposed by the Company's insider trading policy, at prices management and the board of directors consider to be attractive and in the best interests of both the Company and its shareholders, subject to the availability of shares of Class A common stock, general market conditions, the trading price of the Class A common stock, alternative uses for capital, the Company's financial performance, and other factors. Open market purchases will be conducted in a manner intended to satisfy the requirements of, and in accordance with the limitations set forth in, Rule 10b-18 under the Exchange Act and other applicable legal requirements.

The timing and amount of share repurchases under the repurchase program may be suspended, terminated or modified by the Company at any time for any reason, including market conditions, the cost of repurchasing shares, the availability of alternative investment opportunities, liquidity, and other factors deemed appropriate. These factors may also affect the timing and amount of share repurchases. The Company is not obligated to repurchase any particular number of shares or any shares in any specific time period.

Information regarding share repurchases will be available in the Company's periodic reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q as required by the applicable rules of the Exchange Act.
